# Warning!

## Violence, War, Magic & the Supernatural

The fictional world of Rifts® is violent, deadly and filled with supernatural monsters. Other-dimensional beings often referred to as “demons,” torment, stalk and prey on humans. Other alien life forms, **monsters**, gods and demigods, as well as magic, insanity, and war are all elements in this book.

Some parents may find the violence, magic and supernatural elements of the game inappropriate for young readers/players. We suggest parental discretion.

Please note that none of us at Palladium Books® condone or encourage the occult, the practice of magic, the use of drugs, or violence.

**Dare to imagine the impossible, and make it come alive.**

## Dedication

To my Dad and all my friends, old and new, for being there when I needed them most. I promise the future will be a bright and happy one.

– Kevin Siembieda, 2002

**The cover** is a longtime fan favorite by Kevin Long. It depicts a pair of the classic, full conversion “Red Borgs” roaming through the ruins of a fallen city.
