- **OUR FRIENDS THE MACHINES:** In the first mystery of the book, the Kids will experience the botched launch of a set of new action toys. Escaped AIs, intelligent robot toys and possessed humans suddenly make playtime very dangerous.
- **HORROR MOVIE MAYHEM:** The '80s is the era of moral panic. Horror movies, metal and RPGs are all debated by adults. The local video store is suddenly the focus of a conflict spanning generations. When a series of strange events occur, the Kids are drawn into a hunt for the truth behind the video store and its scary movies.
- **THE MUMMY IN THE MIST:** The school is filled with rumors. The mummy has been spotted down by the lake again. Looking for something. Hungering. It falls on the Kids to investigate the mystery of *The Mummy in the Mist*.
- **MIXTAPE OF MYSTERIES:** Eight classic songs. Eight short mysteries. A mixtape of secrets. Just press play!
- **MACHINE BLUEPRINTS:** Two advanced robots, two powerful magnetron ships. In this chapter you will find blueprints, background and adventure hooks for some of the most iconic machines of the era of the Loop.
- **HOMETOWN HACK:** The Mälaren Islands and Boulder City are interesting to explore, but why not hack your own hometown? In this chapter we provide a set of guidelines to create your own setting, complete with the new setting of The Norfolk Broads in England.
