NEW PLAYER CHARACTER CLASSES

Golgotha has four main character classes that represent the most likely types of Scavengers who would be delving into the depths of ancient structures in search of relics, as described in the core rule book. However, they are not the only kind of people that could be found on a Scavenger ship.

The following four character classes can be used in games of Golgotha as either substitutes for the existing classes or as complementarily crew members for more than four Players. These classes represent different facets of a Scavenger crew, and therefore inform the GM on the different styles of adventures that such a crew might undertake. Feel free to mix these with the classes in the core book as you see fit.
