

THUNDERSCAPE

THE WORLD OF ADEN

WELCOME TO THE WORLD OF ADEN!

Fifteen years ago, the Age of Thunder ended with the Darkfall, a horrific supernatural cataclysm of unknown origin! For more than a decade, the people of Aden have struggled to survive against the horrible creatures known as Nocturnals, fighting for every resource in a world that barely resembles its former glory! The forces of steel, magic, technology, and the hybrid art of mechamagic are now brought to bear as never before against the enemies of civilization!

Join forces with the likes of Radiant Order paladins from Arasteen, brilliant mechamages from Urbana with their powerful golem servitors, master wizards from the ruins of Aramyst, and the prowess of the Steamwright's Guild and the Thunder Scouts, bringing their technological mastery to the battlefield!

Survival is by no means certain, but the heroes of Aden will never surrender!

Thunderscape is a complete, self-contained role-playing game utilizing the TinyD6 system published by Gallant Knight Games.

THE TINY D6 SYSTEM

INTRODUCTION

Welcome to the world of Aden. Aden is a vast land, home to twelve great nations and a number of proud settlements who owe allegiance to no one. It is a land of astonishing contrasts, steeped in tradition but embracing progressive thought, rich with magic but aggressively pursuing technology, celebrated for peace but constantly on the brink of war.

And it is a land that, fifteen years ago, fell victim to a supernatural cataclysm of unknown origin that utterly devastated everything that had existed for more than one thousand years.

Welcome to the Thunderscape Campaign Setting.

Thunderscape TinyD6 is a minimalistic table-top roleplaying game that delivers a satisfying gaming experience without books upon books of rules and options. You will not find classes, levels, or experience points in Thunderscape TinyD6 — instead, you create organic characters that grow through roleplaying. While Thunderscape does assume its players are familiar with the table-top roleplaying, newcomers and veterans alike should be able to easily understand the basic mechanics of the game.

Thunderscape uses Gallant Knight Games' popular TinyD6 rules engine and is fully compatible with other TinyD6 products!
