

Icy Ruins of Obira

A 40x30 battle map

Instructions for Home Printing

Print pages eleven onwards, and make sure your printer is set to one-sided only. For one inch scaled squares, print at 91%. If you print at 100%, your squares will be 28mm.

For greater richness in colour and detail, we recommend using a laser printer (found in most libraries), set to 300dpi.

May this map bring you many great adventures, and thank you for helping me do what I love for a living!

Luke Seefuss.

Description

The sweet scent of cherry blossom drifts on the breeze, mingling with that of the rotting timber in this Japan-inspired fishing village. Ice clings to the broken boardwalks of this village where damaged barrels of fish oil are piled high alongside crates of dried, salt-packed fillets which have been mostly raided.

Beneath the blossoming tree is a small stone shrine with a stick of incense. It is where the locals used to come to worship; often asking for a blessing on their next catch, or continued safety and peace a blessing which was not granted.
