40x30 Battlemap

Home Printing Instructions

Print pages 13 onwards and make sure your printer is set to one-sided. For one inch scaled squares, print at 91%. If you print at 100%, your squares will be 28mm. We recommend using a laser printer (found in most libraries) set to 300dpi for best detail and color.

Thank you so much for supporting Luke and I's work by buying this battlemap! It helps us keep making maps and adventure prompts—without people like you it wouldn't be possible.

If you want a free map with an adventure prompt in your inbox once a week, [subscribe to our newsletter](#). You can also [download a backlog of free maps](#) from our site, which we give away to inspire and empower GMs everywhere.

Thanks again, and we really hope you and your party get a lot of fun from this map!

~ Luke & Beb
