THE IPMIL OF THE SAAMI

"You don't have to be afraid, this is my way, I only act like that so I get respected. 'I'm always the first, to inspire my brothers is my calling"

Dan, Incarnation of Liealbolmmai.

Once the great Bieggolmai, that huge giant who made winds with his two immense shovels filled the World with so much snow, nothing could live there.

Then one of the shovels broke, that's where things got fun

The Saami were a tradition of what today are part of Sweden, Finland, Russia and Norway. The Ipmil are their family. In the World they live in, the

Mighty and wondrous gods are tied to the people deeply, the Ipmil Pantheon is made up of the Saami's revered ancestors.

The people face this fact with both wide-eyed wonder and by laughing nonchalantly.

The Saami and their Ipmil ancestors live in a see time as circular and not linear. The flight of Eagles, the hunting of Elk, all those natural cycles and others have happened since the beginning of time and will go on indefinitely.

what could have led some of the people to develop a nihilistic or fatalistic point of view, but the Saami and Ipmil are far from a darker and somber lot. They simply accept what they can't change. And to be fair, they can change quite a bit

The World is as it is after all.

PRINCIPAL MEMBERS

THE AKKA, GODDESSES OF FERTILITY AND CHILDBIRTH

All bodies are made by the Akka, they shape them with the care only a divine mother figure can have. The Akka stand together often enough and intensely enough they count as one unit, but that doesn't mean there is no

individuality between the group. It's often said in the World the Akka are such loving mothers because of their Leader, Maderakka who is the mother's mother figure. Women belong to her, as do boys until they become men. Her first daughter is Sarakka, the goddess of love and sexuality: the party girl, her second daughter is Jusakks who bears an Arrow and protects children, like many middle kids she is a fighty type. The third daughter is uksakka, she shapes fetuses in the womb, the artsy type

The Akka are loving and fierce, and very forgiving. They will be upset if you screw up, but they love you so much they'll probably bake you a cake if you cry over your regret.

Their Scions have taken care of people since the beginning, and they'll never stop. They make sure relationships happen, they make love matches and help generations of families grow.

Unlike many other gods, the Akka will help their Scions if asked. But their definition of help may be very different than the one you thought you needed

BEAIVI, THE SUN GODDESS

Beaivi is almost universally loved among the people, her light was been necessary to all agricultural endeavors and thus has been a vital component of the Saami family for eons.

Her stride toward the sky is never unnoticed by people, in the Winter Solstice white reindeers were sacrificed to Beaivi to make sure she returned to the World to banish winter and so far she always did. Her presence banishes all ills, especially the ones that plague the brain.

Beaivi is powerful and fierce, her laugh and her words are always the loudest in the room and she
