Get a first look into the design process behind the Mistborn Campaign Setting from Lead Writer Lydia Suen.

CHASMFIEND MAGAZINE

LETTER FROM THE TEAM

JILLIAN SCHUMACHER
Marketing Manager at Brotherwise Games

Hello, Worldhoppers! Jillian here, Marketing Manager for Brotherwise Games. Welcome to Volume 2 of Chasmfiend Magazine, the official magazine for the Cosmere® RPG! Chasmfiend was a huge success at Gen Con 2024, so we had to bring it back in 2025. In this edition, you'll find even more Stormlight Campaign Setting goodies and a first look at the Mistborn Campaign Setting! We also show love to our Cosmere board games, Shards of Creation and Mistborn: The Deckbuilding Game.

As you all know by now, we revealed during the Kickstarter campaign last year that the "Stormlight RPG" was the Cosmere RPG all along. This was a hard secret for us to keep, especially at Gen Con, since we were just a few days away from the campaign's launch. In fact, the secret almost came out a couple of times in the months leading up to the campaign. Shout out to Cosmere community members like Kickstarter user "snoogle20" for keeping the secret after seeing the Kickstarter video a few weeks before the launch!

Since Gen Con 2024, many things have changed for Brotherwise and the RPG team! The Cosmere RPG is the highest-funded games Kickstarter of all time, thanks to folks like you! Our community started with 55,000 backers and will only grow from there! This means that the success of the Kickstarter sets us up for an amazing future filled with multiple campaign settings for the Cosmere RPG. We have even started the groundwork for the Plotweaver™ System, the underlying rules system for the Cosmere RPG, which we'll discuss later in this magazine.

With the release of the digital files for the Stormlight Campaign Setting now underway, I am so excited that you finally get to see the hard work and heart that the RPG writers, editors, and designers have put into this game. We cannot wait to hear about your journeys on Roshar and beyond. Just try not to cut your toes off with a Shardblade...
