

"Faster, meaner, smarter...
Man, I hate the technology
curve. It's back to school boys
& girls, the kid gloves are OFF."

—FASTJACK, decker

VIRTUAL REALITIES, a
SHADOWRUN sourcebook,
is the ultimate guide to
decking in the matrix. It
includes new, revised, &
expanded rules for matrix
running, cyberdeck construction,
& computer systems.
VIRTUAL REALITIES also
features a full-color
computer graphics section
& a novella-length fiction
piece, both set entirely
in the matrix.
